Are You Reducing The High Cost of Living?

THE cost of living is just as much a personal problem as it is a national one. What are you yourself doing to reduce it?

When you pay money out and get nothing back you are wasting it - that's what paying rent amounts to.

When you take this same rent money and begin buying a home you are investing your money instead of wasting it. Such payments on a home will soon make you the owner of that home, whereas if you continue to pay rent you will never own anything but a bunch of rent receipts, so far as this rent money is concerned.

Make One of These Homes Your Savings Account.

That's what it really amounts to. And the money you are now saving in this way can be utilized to giv vourself and family some of the present comforts and luxuries of life, and you are still as well off, for the money you are paying on your home represents just as many dollars and cents saved as though it were deposited in a savings bank.

Here Are 3 Unusual Home-Buying Opportunities.

THE Cost of Living isn't worrying High View residents. Any merchant who enjoys High View patronage will tell you that this 15 50.

But why should High View residents worry about the cost of living? They are buying homes with the same money that formerly went for rent-in this way a former expense had been turned into an investment.

They are, therefore, in a better position to enjoy life's comforts and luxuries and pay for them. They are building even more substantially for the future. In a short time to come they will have their homes entirely paid for and all their income can then be devoted elsewhere, with no thought of rent to be paid month after month.

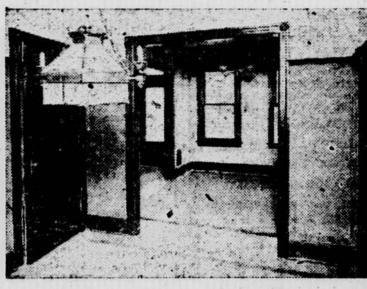

High View homes are of the most substantial construction. The fronts are of beautiful pressed brick. They contain six full rooms and bath. Modern conveniences throughout.

The price is \$3,300—cash or the SHANNON & LUCHS way of \$200 cash and \$26.92 per month.

TO INSPECT—Take any G street car marked "Brookland" or "North Capitol and W streets," get off at Rhode Island avenue and walk one square east.

HIS photographic reproduction was | taken in the dining room of one of our Columbia Heights homes. You are looking toward the parlor and through the parlor can be seen the hall with its front door of plate glass.

At the left of the dining room is the door leading directly into the kitchen. Then there is another door in this kitchen that leads directly into the hall, so that the woman of the house can reach her front door without traipsing through the dining room and parlor.

Note the massive proportions of the dining room drop light, shown in the foreground of this picture. All the other lighting fixtures are of equally as fine a caliber.

Another thing that we would call attention to is the fact that this picture was taken without the aid of a flashlight-one of the best evidences in the world of the perfect natural lighting facilities of this

There are six rooms in all in this home and a perfectly appointed bath. Each room is complete in every detail, leaving nothing to be required but your furniture.

We sell you this home for \$150 cash and \$22.50 per month. The full price is \$2,750. TO INSPECT—Take any 11th street car going northwest, get off at Columbia road and walk one square east; or any 14th street car going north-west, get off at Columbia road and walk three squares east; or any 9th street car going north-west, get off at Columbia road and walk one

NOU don't have to guess what your neighborhood is going to be like at 14th and Perry Streets. The homes we are selling are the last to be constructed at 14th and Perry Streets. The quality of the neighborhood is already apparent, and you will find it a mighty fine neighborhood.

Here we are selling homes of character and individualityhomes with four porches, where the ordinary home enjoys but one or two. Homes with hardwood floors upstairs as well as downstairs, whereas ordinary homes have no hardwood floors at all, and many homes of quality enjoy hardwood floors only on the first floor. Homes with two fireplaces (one in the parlor and another in the dining room), whereas many homes have none at all. Homes with extra large front terraced lawns and extra deep back yards.

And we sell this home for \$300 cash and \$38 per month. Thirtyeight dollars will not rent you a home equal to this—yet the \$38 or so that you are spending for rent will buy this home.

TO INSPECT-Take any 14th street car going northwest, get off at 14th and Perry streets and

Only 1 of These Homes Left

Judging by the great demand shown for these homes in the past few weeks, a day or so's time should find the last one of these superb homes sold.

With the sale of this last home, one of the greatest, if not the greatest, homebuying opportunities in Washington passes out of your reach forever. Should you buy from one of the owners, you would in all probability pay a considerable advance over the prices and terms we ask.
